

Dog Direction

A new fitness opportunity for you and your pet!

Movement Motivation Class

Getting enough exercise and eating right is a goal for all of us. What if you could spend just one hour a week learning how to do this not only for yourself but also for your beloved canine? Our Movement Motivation class incorporates exercise for owner and pet with a chance to strengthen obedience skills. You will save time, train your dog and feel healthier.

As an introductory offer the first class will be free and the class price will be reduced for this session only.

Price for 7 week session meeting once a week for Fall of 2006 is only \$50.00.

Session cost will be set at \$75.00 per session thereafter.

We also offer classes in obedience, targeting, recall, etc...
